### Naming, changing orientation, duplicating

settings > properties

The image shows two screenshots from the Brushes app. The left screenshot shows a menu with 'Properties' and 'Duplicate' options. The right screenshot shows the 'Properties' dialog box for a drawing titled 'Untitled #3'. The dialog has two text input fields: the first contains 'Untitled #3' and the second contains 'Rob'. Below the fields is a preview of a drawing with a blue circle and a green leaf. At the bottom of the dialog, it says 'Tap Preview To Set Orientation'.

name your picture

### Managing pictures

**Gallery** press to go to your picture gallery

Gallery options (bottom right)

A row of five icons for gallery management: a play button, a share icon, a trash can, a grid of dots, and a plus sign.

replay painting — play — share — delete (permanant) — show thumbnails — new
